Thalia Grant-Wisdom, MSFM, MBA

Virtual Assistant

Hello There! I'm Thalia Grant-Wisdom, founder of a sophisticated virtual support service designed for professionals who value precision, discretion, and excellence.

With an extensive background as a Senior Consultant supporting federal agencies and managing complex, high-stakes projects, I bring a refined level of organization, strategic insight, and operational expertise to every engagement. My experience spans financial management, grants oversight, compliance, and executive-level client support—where accuracy and attention to detail are not optional, but essential.

I specialize in providing seamless, behind-the-scenes support that elevates how your business operates. Whether managing critical documents, streamlining workflows, coordinating priorities, or handling sensitive information, I approach every task with intention, efficiency, and the highest standard of professionalism.

As a business owner and commissioned Notary Public, I understand the importance of trust, confidentiality, and delivering an exceptional client experience. My clients rely on me not just for support, but for peace of mind—knowing that every detail is handled with care and precision.

This is more than virtual assistance—it's a strategic partnership designed to help you operate at your highest level.

*Full resume and education verification is available upon request
